

Mina Mikhail

mina.mikhail@gmail.com / +44 75 8311 2396 / <http://fightingtheboss.com>

I'm an engineer and designer with over ten years of experience creating applications for the web

Proficiencies

HTML / CSS / Sass / Javascript
AJAX / REST / jQuery / Backbone.js
Mustache / Ruby / Rails / C# / ASP.NET
Git / MySQL / MS SQL Server

Experience

Engineer & Designer

MUBI / London, UK

October 2009 - Present

Designed and implemented a responsive, touch-enabled Backbone.js application for country-specific MUBI (<http://tr.mubi.com> & <http://uk.mubi.com>).
Also available on Google TV Summer 2012.

Led Sony PS3 application from concept to launch, including wireframing, interaction, design, Rails API development and documentation. *Grew user base 11x within one year of launch (+3m users).*

Designed and coded a complete redesign for Notebook, the MUBI film magazine, front- and back-end including a custom CMS for writers.

Implemented Film Lists, including embeddable widgets, the most used feature on MUBI.

Creator

tiffr.com / Toronto, Canada

July 2009 - Present

Created an app to help Toronto International Film Festival-goers to shortlist and schedule their films. Built with Rails, features a fluid layout, AJAX interactions, and a jQuery app for selecting screenings.

Education

Honours Bachelor of Applied Science
Computer Engineering / Co-operative Education Program
University of Waterloo
1999 – 2005

Engineering Consultant

HPPE Inc. / Toronto, Canada

January 2009 - May 2009

Developed a hardware control system that gathers and processes data from custom-built calibrated equipment for hydroelectric turbine efficiency tests using the .NET Framework

.NET Consultant

CEM Benchmarking / Toronto, Canada

November 2007 - May 2008

Worked with the CEM team to create a robust, real-time online pension analysis survey in Microsoft .NET (C#). *Doubled the number of respondents over the previous year.*

Solution Consultant

T4G Limited / Toronto, Canada

January 2004 - November 2007

Worked on various projects as part of a team for telco and Olympics providers. Performed .NET development, testing, business analysis, and data model analysis and normalization.

About Me

I'm originally from Toronto, Canada currently living and working in London, UK. I'm fluent in English and French.
